# Office Memorandum • UNITED STATES GOVERNMENT

TO : The Files

DATE: 27 July 1956

FROM :

SUBJECT: (Contract RD-107, T. O. 3, VHF Ferrite Antennas)

1. On 24 July 1956, a meeting was held at   
 to discuss the subject contract. Present at the meeting were:

2. Contrary to the writers impression, the low frequency work of T. O. 4 will not delay the VHF work.

3. After a thorough review of existent knowledge on ferrite characteristics, ferramic G material was chosen as the best known and available material. The tunable antenna has been designed as the broad band antenna with a simple tuned circuit filter. It is believed that the tuneable filter has been optimized  awaits our approval of this design to go into production. The ferrite material is on hand and if our approval is given in the near future, the promised delivery date will be met.
